Consulting Engineers established regionally for over thirty years, experienced in the fields of roads, bridges, water and sanitation, schools, hospitals, industrial and commercial developments and Technical Assistance are looking for the following staff, for the supervision of construction of roads:

**Assistant Resident Engineers**
Professionally qualified Highway Engineers or equivalent with a degree in civil engineering (or equivalent relevant qualification) from a recognized institution.

- Proven strong skills in communication and project management. The Candidates shall be fluent in the English language. Portuguese language skills would be an added advantage.

**General professional experience**
- At least 10 years post qualification experience of which at least 7 years experience should be in developing countries including paved road project supervision in managerial capacity as well as experience in project design and technical specification.

**Specific professional experience**
- Minimum of 5 years of proven experience in project supervision as Resident Engineer or Deputy Resident Engineer of paved road construction and rehabilitation projects in developing countries in which are included at least one project with a value of more than €20 million.
- Relevant experience from the region preferably including Mozambique would be an added benefit.

**Resident Engineers**
Professionally qualified Highway Engineers or equivalent with a degree in civil engineering from a recognized institution. A Post Graduate Degree from a recognized institution in a relevant subject will be considered an advantage. Proven strong skills in communication and project management. The Candidates shall be fluent in the English language. Portuguese language skills would be an added advantage.

**General professional experience:**
- At least 15 years post qualification experience in the transport sector.
- At least 5 years international working experience in above mentioned capacity.

**Specific professional experience:**
- Minimum of 10 years of proven experience in project supervision as Resident Engineer of paved road construction and rehabilitation projects in developing countries in which are included at least one project with a value of more than €30 million or two projects with a value of more than €15 million, each.
- Experience must include supervision, project management, technical assistance and quality management in respect of major highway projects in Africa.
- Relevant experience from the region preferably including Mozambique would be an added benefit.
- Successfully concluded EDF funded projects would also be an added benefit.

**Materials and Quality Control Engineers**
Professionally qualified Materials Engineers or equivalent with a degree in civil engineering (or equivalent relevant qualification) from a recognized institution. The Candidates shall be fluent in the English language. Portuguese language skills would be an added advantage.

**General professional experience**
- At least 10 years of experience in the paved road sector as Materials Engineer of which at least 5 years’ experience should be in developing countries.
- At least 5 years international working experience in above mentioned capacity.

**Specific professional experience**
- Minimum of 10 years of experience in materials and soils investigation of which 5 years should have been spent as Materials and Quality Control Engineer in quality control of paved road construction / rehabilitation projects in which are included at least one project with a value of more than €20 million.
- Experience must include quality control, materials investigations and the design of bituminous - surfaced roads in Africa.
- Successfully concluded projects under SATCC specification would be an added benefit.
- Relevant experience from the region preferably including Mozambique would be an added benefit.

Interested candidates must forward their application including their CV and copies of academic certificates to jobapplication@mweb.co.za before the 6th of May 2013.

---

**The Aga Khan Academies**

The Aga Khan Academies form an integrated network of day/residential schools under development in Africa, South and Central Asia, and the Middle East, with the mission of educating future leaders in their respective countries.

The Academies will give young people of exceptional promise an international standard of K-12 education, regardless of their families’ socio-economic status.

The Aga Khan Academy, Maputo, will be the third operating the Academy in the network and, on August 19, 2013, will open its doors to students for the first time. We are inviting applications from interested parents, whose children are aged between 5 years and 8 years, on or before 1st August 2013.

Before applying, parents are strongly advised to attend one of the information evenings, scheduled April and May 2013, as entry to the Academy is highly selective. These sessions, in either English or Portuguese, will provide more details on the mission and vision of the Academies; the chosen curriculum; the admissions process; as well give parents the opportunity to ask further questions. Registration for these sessions is essential.

To register, please send us an email to info.maputo@agakhanacademies.org, stating your name, the session you will be attending, and the age(s) of the child(ren) you would like us to consider for the Academy.

Further information can be found on our website: http://www.agakhanacademies.org/maputo
